

## Who are Chesterfield Master Gardeners?

Virginia Cooperative Extension Master Gardeners (VCE-MGs) are volunteers with Extension dedicated to working with the community to encourage and promote environmentally sound horticulture practices through sustainable landscape management educational Programs.

Virginia Cooperative Extension is committed to helping citizens learn about maintaining a healthy home environment, create sustainable rural or urban landscapes, protect water resources, grow a garden, and properly manage pests and wildlife. Virginia Cooperative Extension specialists, agents, and master gardener volunteers work to provide training, information, and science-based answers homeowners need.

Speakers are available for a variety of topics during the day or evening and at any time of the year. If you do not see the topic you are interested in, please let us know and we will try to accommodate you. We are always looking for new topics and ideas.
